

CLAIMS

I claim:

1) A hazardous materials safe envelope comprising:

5 a standard envelope having two or more edges, two or more corners, an interior surface,
an exterior surface, a front panel, a first side panel, a second side panel, a back panel, and a
closure panel;

an adhesive strip on the interior surface of the closure panel; and

one or more holes in one or more of said front panel, said first side panel, said second side
panel, said back panel, and said closure panel.

10 2) The hazardous materials safe envelope of claim 1 wherein said holes are located in close
proximity to said two or more edges of the envelope.

3) The hazardous materials safe envelope of claim 1 wherein said holes are located in close
proximity to said two or more corners of the envelope.

15 4) The hazardous materials safe envelope of claim 1 wherein said holes are located in close
proximity to said two or more edges and said two or more corners of the envelope.

5) The hazardous materials safe envelope of claim 1 wherein said holes are located in
immediate proximity to said two or more edges of the envelope.

6) The hazardous materials safe envelope of claim 1 wherein said holes are located in
immediate proximity to said two or more corners of the envelope.

20 7) The hazardous materials safe envelope of claim 1 wherein said holes are located in
immediate proximity to said two or more edges and said two or more corners of the envelope.

8) The hazardous materials safe envelope of claim 1 wherein said holes are located such that
the holes are bisected by one of said edges of the envelope.

25 9) The hazardous materials safe envelope of claim 1 wherein said holes are located such that
the holes are bisected by one of said corners of the envelope.

10) The hazardous materials safe envelope of claim 1 wherein said holes are located such that
the holes are bisected by one of said edges or one of said corners of the envelope.

- 1 11) The hazardous materials safe envelope of claim 1 wherein said adhesive strip comprises
a self-adhesive material.
- 12) A hazardous materials safe envelope comprising:
a standard envelope having two or more edges, two or more corners, an interior surface,
5 an exterior surface, a front panel, a first side panel, a second side panel, a back panel, and a
closure panel;
an adhesive strip on the interior surface of the closure panel;
one or more holes in one or more of said front panel, said first side panel, said second side
panel, said back panel, and said closure panel; and
10 said holes are located in close proximity to said two or more edges of the envelope.
- 13) The hazardous materials safe envelope of claim 12 wherein said holes are also located in
close proximity to said two or more corners of the envelope.
- 14) The hazardous materials safe envelope of claim 12 wherein said adhesive strip comprises
a self-adhesive material.
- 15) A hazardous materials safe envelope comprising:
a standard envelope having two or more edges, two or more corners, an interior surface,
an exterior surface, a front panel, a first side panel, a second side panel, a back panel, and a
closure panel;
an adhesive strip on the interior surface of the closure panel;
20 one or more holes in one or more of said front panel, said first side panel, said second side
panel, said back panel, and said closure panel; and
said holes are located in immediate proximity to said two or more edges of the envelope.
- 16) The hazardous materials safe envelope of claim 15 wherein said holes are also located in
immediate proximity to said two or more edges and said two or more corners of the envelope.
- 25 17) The hazardous materials safe envelope of claim 15 wherein said adhesive strip comprises
a self-adhesive material.
